Box I Observations where certain claims were found unsearchable (Continuation of item 1 of first sheet)

This international report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. ☒ Claims Nos.: 71 and 281
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

There are no claims 71 or 281.

3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box II Observations where unity of invention is lacking (Continuation of item 2 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

Please See Extra Sheet.

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☒ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:

4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

☐

The additional search fees were accompanied by the applicant's protest.

☐

No protest accompanied the payment of additional search fees.

BOX II. OBSERVATIONS WHERE UNITY OF INVENTION WAS LACKING

This ISA found multiple inventions as follows:

This application contains the following inventions or groups of inventions which are not so linked as to form a single inventive concept under PCT Rule 13.1. In order for all inventions to be searched, the appropriate additional search fees must be paid.

Group I, claim(s) 1-70, 72-83, 92, 97-103, 105, 109, 114-115, 120-121, 132-134, 139, 144-164, 167-174, 177-197, 199-207, 210-230, 233-245, 254-262, 264, 266, 268-271, 273-280, 286-289, 298-324, and 329-398, drawn to an Internet based system for accessing information.

Group II, claim(s) 84-91, 93-96, and 141, drawn to modes of operation for CPI kiosks.

Group III, claim(s) 104 and 106, drawn to a graphical user interface (GUI).

Group IV, claim(s) 107 and 108, drawn to a graphical model of nearby shelf space.

Group V, claim(s) 110-113, drawn to registering aisle/shelf rights.

Group VI, claim(s) 116-119, drawn to a kiosk advertising directory.

Group VII, claim(s) 122-125, 127, 135-138, and 140, drawn to determining the price of advertising.

Group VIII, claim(s) 142-143, 165-166, 175-176, 198, 208-209, and 231-232, drawn to making purchases with delivery to an address in physical space.

Group IX, claim(s) 246-253, 263, 265, 267, 272, 282-285, 290-297, and 325-328, drawn to an e-mail server for sending e-mail home.

The inventions listed as Groups I, II, III, IV, V, VI, VII, VIII, and IX do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each invention lacks features essential to another. Group I need not involve the CPI kiosks of Group II, or the graphical user interface of Group III, etc.; Group II need not involve the graphical user interface of Group III or the graphical model of nearby shelf space of Group IV; and so forth through all the permutations.
